Use Program

Enhancing Resilience, Innovation, and Sustainable Transformation of the Regional Food System Grant Opportunity

What?

25 Grants

\$7000 Each

To Houses of Worship and Faith Based 501(c)(3) organizations

Why?

- Increase sustainability within the regional food system, including in food production, processing, distribution, and waste reduction.
- Support community-led projects that will have long-term impacts providing access to sustainable, local foods.
- Help communities prepare and respond to unexpected events such as economic hardship, pandemics, and climate change.

Who?

Houses of Worship *and* Faith Based 501(c)(3) organizations who are building sustainable, equitable food systems

Where?

IL, IN, WI counties within a 200-mile radius of Chicago

There is a list of eligible counties within the application: bit.ly/eligiblecounties

When?

Application deadline:
 Monday, January 31, 2022
 midnight, Central time

• Grant period: April 2022 – March 2023

How? "Think Sustainability" Project Examples:

- Starting a community food garden
- Increasing the delivery of locally-grown food to homebound senior citizens and other community residents
- Starting a faith-based Community-Supported Agriculture (CSA) farm
- Offering a series of free community classes about nutrition, healthy eating, and community gardening
- Working with farmers to increase the distribution of sustainable, local food
- Starting a food composting system at a house of worship

Examples of non-eligible projects

- Buying non-sustainable, non-local food for distribution
- One-time food distribution events
- Projects that will not have a longer-term impact in enhancing the resilience, innovation, and sustainable transformation of the regional food system

Application must include:

- Grant Application Form
- The applicant's signed IRS Form W-9
- And the applicant's IRS 501(c)(3) Letter of Determination (only required for 501(c)(3) nonprofit organizations, not houses of worship)

Please attach the required documents and email to grants@faithinplace.org by the Jan. 31st deadline.

What we are looking for in an application:

- Does project align with Grant Goals: Resilience, Innovation, Transformation?
- Focus: Is there a well-defined problem and solution?
- Feasibility: Does your HoW have capacity to complete the project?
- Budget: Is it realistic? Does it align with your objectives?
- Impact: How will the community and regional food system benefit?
- Environmental Justice Communities: Applicants located in and/or proposing projects that will be implemented in Environmental Justice Communities will be prioritized during the scoring process.

Environmental Justice Communities

- Environmental justice communities are communities
 disproportionately impacted by polluted air, land, water, and
 climate change. Environmental justice communities are in urban
 and rural settings and are typically low-to-moderate-income
 communities of color
- Faith in Place will use the U.S. Environmental Protection Agency's Environmental Justice Screening and Mapping Tool: www.epa.gov/ejscreen

What do we have to do if we receive a grant?

- Attend a Kickoff meeting in Early April 2022
- Attend three Check-In meetings during the year (April 2022- March 2023)
- Submit a final report March 31, 2023
